Personal Statement

I am a Software, Web developer and IT Consultant living in East Malling, Kent. I was born and raised in Alaior, Menorca and I moved to Barcelona to study Computer Engineering and a post-graduate in Service Management and Engineering (UPC School of Professional & Executive Development). I spent one year as an exchange student in an international and multicultural environment studying for my Bachelor thesis in the NTNU in Norway. I am a quick-learning, highly organised, efficient individual and self-starter, capable of working in multicultural environments and able to manage a high workload.

Professional Experience

- | | |
|----------------|---|
| 2013 - Present | Truekke as Full Stack Web Developer, I'm collaborating on the creation of the new startup Truekke. I am responsible for the creation of the web site and I will be part of the team in charge of the maintenance and further new development. We are developing it with Ruby on Rails, Bootstrap, Slim and Compass.
(http://www.truekke.com/) |
| 2013 – Present | Singulàrs I as the co-organizer of annual conference, Singulàrs. We are organizing the annual conference where singular people from Alaior, Menorca share their knowledge and values. I also responsible of the Technical resources of this project and I've developed the web site in HTML5. Currently we are working on the new web site in HTML5, Bootstrap, Less, CSS3 and PHP.
(http://losingulars.com/) |
| 2012 - 2014 | QAD Europe as Software engineer associate in the department of EDI World Services at QAD that provides Enterprise Resource Planning software to manufacturing companies around the world. I was part of the Bank Drivers Team, collaborating with several multinational companies, working in a multicultural environment and engaged in global projects. Providing software solutions that allow companies to send and receive electronic data information with the bank with complete integration with cash management and the treasury system (ERP) using standard formats as SEPA, BACS, ACH, SWIFT MT940. Working in the language PROGRESS 4GL. |
| 2014 | María Perez Web as Freelance Web Developer. I developed Psychologist María Perez's web. For this development I have used HTML5, Bootstrap, CSS3 and PHP. (1 month)
(http://pereznarciso.com/) |
| 2013 | Camins ONG as Freelance Web Developer. I developed the ONG Camins web. For this development I have used HTML5, Bootstrap, CSS3 and PHP. (1 month)
(http://www.caminsong.org/) |

- 2011 – 2012 **Internship in Roche Diagnostics** as a Web application developer (CACHE Intersystems, HTML, JavaScript, CSS). Developing OMEGA 4 (Lab software) a web application built in CACHE. Using software development methodologies (SCRUM). (6 month)
- 2010 **Final Thesis** in NTNU working for SINTEF. Developing simulation program / framework that will support people in learning how to properly use an ultrasound probe. First, the simulator should be able to take inputted medical images and render them into a 3D model. Then, using the special haptic device, the user should be able to touch and feel the 3D model and should be able to see the proper CT scan image and the corresponding ultrasound image. Using software development methodologies (SCRUM). (6 month)
